

Name: _____

Date: _____

Adventure Camp

Camp Reefton offers 4 activities. Early in the camp week, campers get a chance to try each activity. On Thursday afternoon campers choose the activity they would like to do again.

The table shows how many campers chose each activity at the fifth grade camp and how many chose each activity at the seventh grade camp.

Camp Reefton Thursday Activities

	Rock Wall	Canoeing	Archery	Ropes Course
Fifth Grade	15	18	24	18
Seventh Grade	19	21	38	22

1. What can you say about the choices of the fifth and seventh graders?

2. The camp director said that canoeing was more popular with the fifth graders than it was with the seventh graders. Do you agree with the director's statement? Use as much mathematics as you can to support your answer.
